SARL reaches out to SADC radio amateurs

The **South African Radio League** (SARL) is reaching out to radio amateurs who are members of their national society in SADC countries, to join the SARL on a complimentary basis.

This is part of the SARL's commitment to support the IARU Region 1 "*Support for the Amateur Radio Service*" or, for short, STARS programme.

The objective of the STARS programme is to defend, protect, extend, develop and promote the amateur radio service in countries where amateur radio activity is low or nonexistent.

To apply, radio amateurs in Namibia should complete the SARL membership application form and submit the form to me so I can forward it with the proof of membership to the SARL.
