Pieter V51PJ has set up a Winlink gateway. With this you can up and download emails via HF and do a host of other tasks needed for emergency communication. Please visit the Winlink website for more info.

## **5. Local news**

I have received a request to try and streamline the Sunday morning rounds into either a round table or a net control type system. The way things are currently going is chaotic and some OMs feel left out and either don't report in at all or switch off their radios because they become overseen during conversations.

A suggestion was made if you have an urgent matter to discuss, QSY to another frequency and join the round again once you have finished. Or ask your question but wait for the answer until it is the turn of the other OM.

## **6. International News**

### **SSTV Handbook**

**Martin Bruchanov, OK2MNM**, has written a Free e-book for ham radio operators and radio listeners interested in special

communication modes for image transmission – SSTV, radio facsimile (WEFAX) and digital SSTV (HamDRM).

You can download the entire book or view on line...
